

Ideation Phase

Empathize & Discover

Date	28 june 2026
Team ID	
Project Name	Automated Network Request
Maximum Marks	4 Marks

What is an Empathy Map?

An Empathy Map is a collaborative tool used to understand the users of a system by capturing their thoughts, feelings, challenges, needs and goals. It helps us step into the users' shoes to design solutions that are user-centered and solve the right problems.

For our project – Automated Network Request Management in ServiceNow, the empathy map helps us understand the end users and IT teams who interact with the system.
